|-------------------|-------------|----------------------------|
| • Limit Water Use | • Xeriscape | • Reduce or Eliminate Lawn |
|-------------------|-------------|----------------------------|

**Part 2: Open Space Specific Characteristics:****Wildlife & Plants Assessment**

- [001-LA9.11.pdf](#)

**Please describe any notable parcels of open space or features of your open space - i.e. - a wash or river running through the property or a wetland / birding area.**

Natural rock outcroppings were identified and left in place to maintain the native desert feel throughout the community. Additionally, several washes are present throughout the community.

**What wildlife and native plants do you most frequently find in your community now? (NOTE - this is anecdotal, does not have to be a scientific study or exhaustive list)**

Typical native desert plants such as Palo Verde, Acacia, and various species of cactus.

**Are any herbicides, pesticides or chemicals of any kind used in your open space parcels?**

No

**Does your community currently have a management plan for the open space in the community**

No

**Does your community currently have a process in place to ensure that the open space will continue to be managed as open space once Taylor Morrison turns ownership over to an HOA?**

Yes
