- Nuts
- Foliage/Twigs
- Water Garden/Pond
- Wooded Area
- Evergreens
- Mature Trees
- Water Garden/Pond

Controlling Exotic Species

Keep Cats Indoors

Soil and Water Conservation

• Limit Water Use

• Drip or Soaker Hose for Irrigation

Part 2: Open Space Specific Characteristics:

Wildlife and Plant Inventory Documentation

Montgomery-Farm-Estates-Tree-Survey.pdf

Please describe any notable parcels of open space or features of your open space - i.e. - a wash or river running through the property or a wetland / birding area.

Montgomery Farm is adjacent to a conservation easement and Rowlett Creek. Throughout the community, we have linked open spaces to the conservatory and have saved multiple specimen trees.

What wildlife and native plants do you most frequently find in your community now? (NOTE - this is anecdotal, does not have to be a scientific study or exhaustive list)

Multiple species of trees and wildlife are found throughout Montgomery Farm. Various birds, coyotes, rabbits, and honey bees can be seen in the conservatory.

Are any herbicides, pesticides or chemicals of any kind used in your open space parcels? No

Does your community currently have a management plan for the open space in the community $\ensuremath{\mathsf{No}}$

Does your community currently have a process in place to ensure that the open space will continue to be managed as open space once Taylor Morrison turns ownership over to an HOA?

Yes
