Cover Image**Description**

The Nature Play Space at Silver Ridge gets children and their parents up close to nature through active exploration and play. A winding sensory path meanders through a butterfly garden, with soft grasses to touch and colorful flowers to smell. Next to the garden, a unique hill slide encourages social play and group games—who can make it to the top of the mound first? Children (and parents!) can practice their balancing skills on the log stepping stones, and fun play equipment gets children moving while surrounded by the beauty of the butterfly gardens. Every time they visit, there's something new to see and do!
