Cover Image**Description**

The Palmero NWF Certified Nature Play Space is an innovative outdoor space for people of all ages to engage with nature while keeping active. A 4-foot wide crushed shell path encircles log playground border for children to practice balance with a Parkour 4 climbing play structure and Wobblw Bridge play structure as the center focal point. Adjacent to these activity centers, children can play in a wooden playhouse or spend hours digging in a large sand pit area positioned under the shade of a large existing oak tree canopy. Opposite these activity areas is a picnic table and stone steps similarly positioned under a large oak tree canopy for shade. Palmero offers something new to explore with every visit providing families with year-round opportunities to engage with nature and with each other.
