Cover Image**Description**

The Paradisi Nature Play Space is a creative nature play space for children of all ages. Children can enter the playspace by climbing up a mound and sliding their way down into a challenging parkour obstacle course testing their climbing skills. Younger children may find themselves digging and being creative in the large dry creek bed or rolling down short grassy mounds and hiding in tunnels. The entire play space is surrounded by native plants, stimulating the sense through sight and smell. With so many ways to play and engage with nature, this space will keep families coming back time and time again.
